

I am deeply concerned about the prospect of LPFM stations forcing existing FM translator service off the air. I am a listener/financial supporter of K-Love radio. I cannot overstate the importance of this radio station in my life and that of my family. It is a consistent source of music, news, and entertainment that is extremely high in moral standards. The loss of such a station would create a huge void in the life of my family. Additionally, a significant source of positive and encouraging entertainment would be lost to our entire community. I have worked closely with teens for many years and can vouch for the importance of this station in providing direction of high moral fiber as well as entertainment. In an age when there is so much that is negative, violent, and sexually explicit, the loss of such a positive influence as K-Love would be tragic. Please, for the health of our communities and ultimately our nation, do not allow FM stations using translators to be pushed off the air. Thank you for your consideration. MPH
